Subject: Re: Sunnyside; Mogul and Mayflower Mines

Tina,

There should be items in the Upper Animas site file. Check with Mike Rudy and Richard Sisk for some help. As for work orders, there would TDDs for Mogul or a combination of mines from before in 2010. Site Assessment and Program Support (Dan Wall) was still involved to some degree with sampling all the mines and drainages. Removal only looked at Mogul briefly among several mines on Cement Creek.

We have a cooperative agreement with DRMS to do limited analysis of the Mogul. (Cinna V would have that.)

Hope that helps.

Hi Steve – I am working on a FOIA and the requestor is asking for work orders from 2012 to date on the three above mentioned mines. I looked in OSC website and didn't see anything and was wondering if you had this information or if there are any.

Thank you.
